Air Conditioning is In!

The Rekindle Foundation is excited to announce that the dining hall main floor now has air conditioning! This update was much needed for the hot summer days of camp and, we hope, will make the facility more attractive to outside groups seeking to rent the space. Thanks to the generous support of Rekindle donors, we were able to provide funding for this project.

Post-High Weekend

Post-high weekend was an important camping experience for many Rekindle board members. However, over the past few years registration numbers had not allowed post-high weekend to be held. In 2012, Rekindle members began talking with high school seniors and college students about this experience. The Rekindle Foundation is thrilled to have been, in some small way, a part of the successful July 5-7 Post-High camp at Camp Walter Scott. We look forward to these young adults leading camp into the future!

Labor Day Family Camp

The 2013 CCIW camping season is well underway, but there is still an exciting opportunity to share Camp Walter Scott with your family! Family Camp weekends are a relaxing way to bookend your summer, while sharing the joy of camp with everyone from toddlers to great-grandparents!

You can register for this fun-filled weekend by visiting www.cciwdisciples.org and downloading the form (located under the "Camps" tab). Congregations in the CCIW region should also have these forms available. Don't wait—registration deadline is August 16th!

Accessibility Project—Update

As previously reported, projects have been underway to make the main floor of the dining hall handicap accessible. We are excited to announce that this project was completed in mid-June with the installation of a door leading from the platform into the dining hall. In addition to increased accessibility, the porch/platform area is also being used by camps as gathering and meeting space. What a fabulous addition!

Rekindle Open Meeting @
Camp Walter Scott
Nov. 9th @ 3pm

Got Water?

For those of you who have visited camp over the past few years, you may have noticed the dining hall water fountain was out of order.

As we all know, kids at camp get hot and sweaty and need lots of water. The Rekindle Foundation wanted to fix this situation.

During the month of June, two new water fountains were installed just inside the new handicap accessible entrance! Next time you are at camp, make sure to stop and enjoy a drink of ice cold water!

Praise Report:

Camper numbers
were **UP** for 2013!

Upcoming Events

- Plans are currently underway for a triathlon to be held at Camp Walter Scott! Please watch www.therekindlefoundation.com for more information.
- 2013 Rekindle Foundation Membership information will be coming out sometime after the August 4th meeting. Stay tuned!
- CCIW work days for Camp Walter Scott will be announced when the time approaches to close camp for the season. We hope to see a great volunteer turn-out this fall!
